AdeptSource's Life Sciences practice offers exceptional proven industry leading professionals who possess top-notch expertise in the pharmaceutical, biotech, and medical device industries.

"AdeptSource has been a valuable and effective partner in helping us identify computer validation engineering resources with relevant niche skills. They are responsive and work hard to accommodate our schedule, budgetary and subject matter needs. They have a good understanding of the specialized needs of the highly regulated pharmaceutical industry and have provided people who can understand and deliver. I highly recommend them and continue to use AdeptSource to provide resources whenever the need arises."

**- Michael L.,
Sr. Director, IT, Gilead Sciences**

About us

AdeptSource is invested in helping our Clients achieve business goals by providing the very best Life Sciences professional services available.
